

Label	EUR-ACE®
Higher Education Institution	<i>Universitat de les Illes Balears</i>
Country	<i>Spain</i>
State/Province	<i>Balearic Islands</i>
Name of the Programme	<i>Degree in Telematics Engineering</i>
Degree Awarded	<i>Graduate in Telematics Engineering</i>
Qualification Level	<i>First Cycle</i>
Programme Objectives; Profile	<ul style="list-style-type: none"> • <i>Plan, install, manage and maintain communications networks (LAN, internet, intranets, WLAN, mobile telephone networks, etc.)</i> • <i>Design and audit Communication networks</i> • <i>Design and implement security systems and tools both for data storage and transmission, or to protect against unauthorised access</i> • <i>Security diagnostics and audits</i> • <i>Design and development of telematic applications and services (i.e. e-mail, www, online shopping, etc.)</i> • <i>Design and development of communications protocols (i.e. TCP/IP)</i>
Programme Duration	<i>8 Semesters</i>
Total Number of ECTS Credits Awarded	<i>240 ECTS</i>
Brief Description of the Programme	<i>Mathematics for engineering (10%),</i> <i>Physics and Electronics of the communication networks (15%)</i> <i>Informatics (10%)</i> <i>Telecommunications systems (15%)</i> <i>Networks technology (15%)</i> <i>Network management and services (15%)</i> <i>Telecommunication projects (15%)</i> <i>Business basics (5%)</i>
Examples of Very Good Practice	<i>Last degree year devoted to develop team projects that combine the knowledge and capacities achieved in the previous courses.</i>

Accredited without / with Adjustment Requirements	<i>Accredited Without</i>
Adjustment Requirements	<i>Not applicable</i>
Accredited by	ANECA-IIE
Accredited	<i>(From 15th December 2016 to 15th December 2022)</i>
